Support · optional · on teachers' recommendation				
German for beginners	2 h	2 h	2 h	2 h
French support FLSco*	2 h	2 h	2 h	2 h

Good to know

- **Spanish and Latin:** these options start in 5e and can be continued through lycée. Joining at a level other than 5e is considered case by case: first the student's level, then available places.
- **One language pathway per year.** It is optional: each student can choose one at most.
- **History-geography in German:** the history-geography curriculum is still taught entirely in French. The hour in German comes in addition and is added to the timetable.
- **Support groups:** German for beginners and French (FLSco) are for students who are new to the language. They are recommended by the teaching team and remain optional.
- **Dropping an optional subject:** during or at the end of the year, first talk to the teacher concerned, then make the request to the collège and lycée management.

Collège glossary
